Hazardous Substances Compliance Statement

Revision Y (8th April 2022)

Scope

The following statement is applicable to all standard stainless steel, nylon, polyamide, and acetal fastener products listed online by Accu Limited (except those designated as “discontinued” or “available offline”), and also includes stainless steel fasteners incorporating complementary materials contained in our standard product ranges: bright zinc plated steel, plastic patch, nylon inserts, etc. (except those designated as “discontinued” or “available offline”).

This statement also applies to the following components:

(This section is optional, see scope above)	
Accu Part Code (APC)	
<input type="checkbox"/> Applies to RoHS and REACH compliance <input type="checkbox"/> Applies to RoHS compliance only <input type="checkbox"/> Applies to REACH compliance only <input type="checkbox"/> With exception <input type="checkbox"/> Without exception	
Print Name	Signed*

*I confirm that I have received written confirmation, from the original manufacturer, that this Accu Part Code is compliant with the requirements of this statement, outlined below.

ACCU LIMITED. REGISTERED IN ENGLAND, COMPANY NO: 08016434. VAT NO: GB136780105.

THE INFORMATION IN THIS COMMUNICATION IS CONFIDENTIAL AND INTENDED ONLY FOR THE USE OF THE ADDRESSEE. DISCLOSURE, USE OR COPYING OF THIS DOCUMENT OR ITS CONTENTS OTHER THAN BY THE ADDRESSEE IS PROHIBITED. IF YOU RECEIVE THIS COMMUNICATION IN ERROR WE WOULD BE GRATEFUL IF YOU WOULD NOTIFY US IMMEDIATELY AND DESTROY ANY MATERIAL RECEIVED.

RoHS Compliance

RoHS (Restriction of Hazardous Substances), is an EU directive on the restriction of certain hazardous substances within electrical and electronic equipment, which was brought into force on 13 February, 2003.

With the introduction of the RoHS directive in February 2003 and the adoption of RoHS 2 in June 2011, as well as the introduction of RoHS 3 in 2015, Accu Limited can confirm compliance with European Directive 2002/95/EC, RoHS 2 2011/65/EU, and RoHS 3 2015/863/EU. Accu Limited also confirms compliance with the current China RoHS requirements where applicable.

Components listed within the scope of this statement are compliant with RoHS 2002/95/EC and do not contain over the designated threshold of any banned substances. These include:

Restricted Substance	Maximum Designated Threshold
Cadmium	100 ppm (0.01% weight)
Decabromine diphenyl ether (DECA BDE)	1000 ppm (0.1% weight)
Hexavalent Chromium	1000 ppm (0.1% weight)
Lead *	1000 ppm (0.1% weight)
Mercury	1000 ppm (0.1% weight)
Polybrominated biphenyls (PBB)	1000 ppm (0.1% weight)
Polybrominated diphenyl ethers (PBDE)	1000 ppm (0.1% weight)
Bis(2-Ethylhexyl) phthalate (DEHP)	1000 ppm (0.1% weight)
Benzyl butyl phthalate (BBP)	1000 ppm (0.1% weight)
Dibutyl phthalate (DBP)	1000 ppm (0.1% weight)
Diisobutyl phthalate (DIBP)	1000 ppm (0.1% weight)

*Unless expressly permitted by the directive, such as in copper alloys.

REACH Compliance

REACH 223

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) is a European Union Commission (EUC) Regulation on the distribution and safe use of chemicals (EC 1907/2006) which entered circulation on 01 June, 2007.

Accu can confirm compliance with REACH Regulation, particularly the criteria for identifying the 223 SVHCs (Substances of Very High Concern) restricted by the regulations.

In addition, as all components listed within the scope of this document do not contain SVHC substances in excess of 0.1% of weight, Accu Limited is not required to register or obtain authorization for these components due to two caveats found in REACH EC1907/2006 Annex XVII:

- 1, The items are considered an article under REACH and any finish is integral to the function of the item.
- 2, The items or finishes are not intended to be released into the air, ground or water in the EU.

The eventual oxidation of the items or any finish constitutes normal wear and tear of the item or its finish performing their intended function. According to REACH, normal wear and tear does not constitute "release".

Barring the listing of additional substances in the future, these items do not exceed 0.1% of weight of hazardous substances listed in the ELV Directive and registration under REACH is not required.

Asbestos Compliance

Accu Limited Certifies that asbestos is not used in the processing of, or contained in, any of the products or packaging materials outlined in the scope of this document.

Ozone Depleting Substances Compliance

Accu Limited Certifies that Ozone Depleting Substances are not contained in any of the products or packaging materials outlined in the scope of this document.

Additional Compliance Information on Accu Products

Accu's compliance with the above regulations in relation to the products outlined in the scope is ensured through:

- o Regular analysis and adaptation to the evolution of RoHS, REACH, and any future regulations.
- o Strict control of the materials and finishes used in all present and future product ranges.
- o Periodic analysis of our suppliers and manufacturing partners to ensure coordinated compliance.
- o Periodic analysis of our products on an as-needed basis.

We will maintain the requirement for our upstream suppliers and manufacturers to advise of any change in circumstance concerning prohibited substances.

Confirmation

Signed on behalf of Accu Limited:

Daniel Ackroyd - Quality Manager
